

ביצה לג

It is אסור to create a fire on יום טוב. The באר משה writes that if it is a צורך גדול, then it is מותר to ask a נכרי, as most פוסקים hold that lighting a fire on יום טוב is an איסור דרבנן (and is אסור to do on יום טוב because it is מכשירי אוכל נפש that was possible to have been done on יום טוב).

It is אסור to heat tiles (referring to tiles that normally go on a roof) until they are white hot, because this improves the tiles and is תיקון מנא.

Sticks of בשמים are not מוקצה on שבת or יום טוב as they are used for smelling (referring to detached sticks).

A person may break open a barrel to get food out, provided he does not make a serviceable opening that can be used for later, and he makes the barrel unusable. In general, when opening bags and boxes of food, one must be careful not to rip any letters, and not to make a serviceable כלי.
