

It is forbidden to cut off a wart on שבת, whether it is wet or dry.

It is אסור to do any מלאכה regarding the קרבן פסח if it could have been done before יום טוב. Therefore, it may not be carried through רשות הרבים (if ערב פסח falls out on שבת), nor may a wart be cut off. If the wart is dry (the dryness signifying that it is no longer a part of the animal), it may be cut off.

A כהן who hurts his finger may wrap it in therapeutic grass while in the בית המקדש--even though this is a form of רפואה and אסור מדרבנן--because being as how he is doing a מצוה in the בית המקדש, this overrides an איסור מדרבנן (this is specifically in the בית המקדש, it does not apply to מצות דרבנן in general).

One who hurts his hand may wrap it in grass or reeds provided it is not therapeutic (such as grape leaves).

A כהן must be careful that nothing comes between his skin and his בגדי כהונה. Therefore, while doing the עבודה a כהן may not wear תפילין של יד as that is a חציצה (תפילין של ראש may be worn).

A כהן may not wear any other בגד during עבודה. A בגד is considered anything that is 3x3 אצבעות. If it is something that performs a function--such as a belt--even smaller than 3x3 is אסור.
