

Before the פרה אדומה is burnt, it's body is tied with a rope made of reeds (which are not מקבל טומאה).

When a woman is brought as a סוטה, her dress is torn. To ensure that it does not fall off, her dress is tied by her shoulders with a rope made from willow branches.

When measuring the תחום, a rope made from linen is used.

If the decline of a pit or the incline of a mountain is so steep that it is not four אמות long, that the decline or incline is not counted.

When it comes to measuring for an עגלה ערופה (to determine which city is responsible), being as how it is דאורייתא, the distance is measured as is, meaning inclines and declines are fully measured.

An עבד or שפחה is believed when they state the location of the תחום שבת. A קטן is not believed, but a גדול who relies on his memories from when he was a קטן, i.e., he remembers from when he was young until what point the תחום reached, is believed.
