

פסחים קיט

During the recitation of הלל, certain פסוקים are said by the ש"ץ and repeated by the ציבור. Each קהילה should do according to their מנהג.

It is אסור to drink after the אפיקומן is eaten (so that the taste of מצוה should remain in your mouth). The משנה ברורה says it is a מחלוקת regarding drinking. An alcoholic drink is certainly אסור (with the exception of the third and fourth כוסות), and we are מחמיר on all drinks with the exception of water.
