

דף יומי הלכה שבת קכו

A window shutter may be used to close the window on שבת even if it is not connected, provided it was designated before שבת as a shutter (mental designation is sufficient).

The covering of a pit or to a basement may not be used unless it has a handle (a handle showing that it has use as a כלי). If, however, the covering without a handle was used before שבת, it may be moved on שבת. Covers for כלים, however, do not need a handle in order to be used on שבת.

פרק כל הכלים

One may use stored wheat or wine on שבת, but it is אסור to clear out a storehouse. However, if it is for guests, one may remove up to five boxes (with each box containing three סאה [a space that contains between twenty four and forty two liters of volume]). Moving more than five boxes would constitute טירחא and is forbidden on שבת, even when being done for guests.
