

## דף יומי הלכה שבת ס

A woman may go out on שבת with a needle that does not have an eye, provided that the needle is used as some sort of clasp, or any other need for clothing and not as an ornament.

The רמב"ם holds that it is אסור to go out on שבת or יום טוב with a hobnailed sandal. If the nails are there merely for decorative purpose, it is permitted.

A person may not go out wearing a single sandal unless he has a wound on his foot (in which case he wears the sandal on the other foot).

It is permissible to send even unsewn garments as gifts on יום טוב because, although it is only permissible to send gifts that are usable, unsewn garments can be used to be sat upon, or to cover one's self.
