

דף יומי הלכה שבת פב

One who needs to clean himself after using the bathroom on שבת, and he has in front of him stones and a non-dangerous pottery shard, he should use the pottery shard being that it has other uses on שבת and is not מוקצה (למשל, it could be used as a bottle cap). If he has in front of him stones and grass, if the grass is wet, he should use the grass, if it is dry, it will hurt the person's flesh, thus it is better to use the stone.

One should not eat until he is sure he does not need to use the bathroom.

One is liable for taking our pottery, if he takes out a piece sufficient in size to hold a רביעית.

One whose home shares a wall with a בית עבודה זרה, if the wall falls, he may not rebuild, as that benefits the עבודה זרה which is אסור. What should he do? Build the wall entirely in his own property, thus forcing the בית עבודה זרה to build their own wall.

עבודה זרה is מטמא through touching, but not through carrying.

A severed arm from an idol is not מטמא.
