

It is אסור to raise בהמות דקות in ארץ ישראל as they damage the fields of others. It is מותר to raise them in Syria or in desert parts of ארץ ישראל. Today, writes the מחבר, since there are not fields owned by Jews, it would be מותר. The טור writes that this הלכה was in effect in בבל in areas where there were lots of fields owned by Jews. According to what the טור writes, than today when there are nice fields owned by Jews in ארץ ישראל--it would be אסור to raise בהמות דקות.
